Meridian Hotels Group Commercial Agreement

Document ID: DOC-AGR-0017

Agreement ID: AGR-2026-017

Account ID: ACC-0017

Revision: 1

Effective Date: 1 January 2026

Expiration Date: 31 December 2026

Authority Class: CUSTOMER_SPECIFIC

Status: Current documentary representation; agreement ACTIVE

Purpose

Defines customer-specific commercial terms for qualifying Meridian Hotels Group transactions during the 2026 agreement period. Specific clauses modify general Northstar policy only within their stated scope.

Commercial Delegation

For qualifying Meridian transactions, a Senior Account Executive may approve discount up to 10% when the Eligible Equipment Subtotal is at least Rp300 juta and all applicable conditions are satisfied. Requests above 10% follow the applicable approval or commercial-exception process.

Eligible Equipment Subtotal

Qualification follows the current Northstar Equipment Volume Discount Policy. Excluded service, installation, consumable, promotional, price-protected, or otherwise ineligible lines do not become eligible merely because this agreement is active.

ExtendedCare

ExtendedCare 3Y may be included for qualifying purchases where the applicable product and installation conditions are satisfied. Where authorized installation is required, agreement support does not mean coverage is active before that condition is completed.

Payment Terms

Net 45.

Promotion and Restrictions

This agreement does not create general promotional stacking rights and does not remove price-protected or other product-specific commercial restrictions unless an explicit clause states otherwise.

Illustrative Decision

For a qualifying Meridian Eligible Equipment Subtotal of Rp489 juta with Daniel acting as Senior Account Executive, a 10% request may be WITHIN AUTHORITY if all agreement and policy conditions remain satisfied. A 12% request is not authorized by this delegation.

Applicability Boundary

The agreement applies only during its effective period and only to Meridian transactions within scope. Historical or unrelated terms must not be generalized.
