NORTHSTAR COMMERCIAL SOLUTIONS

DapurKita Restaurant Group Framework Agreement

Document ID: DOC-AGR-0028

Agreement ID: AGR-2026-028

Account ID: ACC-0028

Revision: 1

Effective Date: 1 January 2026

Expiration Date: 31 December 2026

Authority Class: CUSTOMER_SPECIFIC

Status: Current documentary representation; agreement ACTIVE

Purpose

Defines the purchasing framework for DapurKita Restaurant Group. It does not create an automatic customer-specific discount or customer-specific delegated approval authority.

Consolidated Project Scope

Multiple locations may be consolidated only when they form one genuine approved project scope. Unconfirmed future phases or unrelated pipeline cannot be added merely to reach a discount threshold.

Volume Discount

Eligible Equipment Subtotal and standard volume bands are governed by CM-001. Promotional, service, installation, price-protected, and other excluded components remain subject to their applicable rules.

Promotional Lines

PROMOTIONAL lines are governed by CM-004. This agreement does not create automatic stacking between promotional pricing and the standard volume discount.

Approval Authority

No customer-specific delegated authority is granted. Standard role authority under CM-002 applies. A Senior Account Executive therefore remains subject to the standard 8% ceiling unless another current authoritative rule changes it.

Payment Terms

Net 30.

Illustrative Decision

For a Rp790 juta opportunity with Rp620 juta eligible NORMAL equipment, the standard volume program supports up to 9% before considering other restrictions. A 9% request owned by a Senior Account Executive is APPROVAL REQUIRED. A 15% request is outside the standard volume program and requires commercial-exception treatment, not merely ordinary manager approval.

Applicability Boundary

This framework applies only to DapurKita and only within its effective scope. It does not create automatic renewal, stacking, or entitlement beyond explicit clauses.
