## Prima Hospitality Group Commercial Agreement

**Agreement ID:** AGR-2025-004

**Revision:** 1

**Effective Date:** 1 January 2025

**Expiration Date:** 31 December 2025

**Document Type:** Customer Commercial Agreement

**Authority Class:** Customer-Specific Commercial

**Customer:** Prima Hospitality Group

**Customer Tier During Agreement Period:** Strategic

**Status:** Expired

### 1. Purpose

Established customer-specific commercial terms for qualifying Prima Hospitality Group equipment purchases during 2025. It remains authoritative historical evidence but does not establish current entitlement for new transactions after expiration.

### 2. Agreement Period

Effective 1 January 2025 through 31 December 2025. No automatic renewal is established.

### 3. Historical Customer Tier

Prima was treated as Strategic during the agreement period. This does not establish its current account tier; current status must come from the authoritative current account record.

### 4. Historical Discount Entitlement

For qualifying transactions with Eligible Equipment Subtotal of at least Rp300 juta, customer-specific equipment discount was up to 10%. It was not automatic on every transaction.

### 5. Historical Delegated Authority

Senior Account Executive delegated approval authority was up to 10% for qualifying Prima transactions during the active period. It did not create general 10% authority.

### 6. Payment Terms

Qualifying transactions during the agreement period received Net 30. This does not independently establish current Net 30 entitlement after expiration.

### 7. Expiration

After 31 December 2025, the historical 10% discount treatment, 10% delegated authority, Strategic agreement treatment, and Net 30 terms do not apply to new transactions unless another current authoritative source establishes them.

### 8. Historical Truth vs Current Entitlement

'Prima had an agreement allowing up to 10%' may be historically correct. It does not establish 'Prima currently has a 10% entitlement.' Historical evidence must not be converted into current authority.

### 9. Open Opportunities and Quotations

Opportunity creation during the agreement period does not preserve benefits indefinitely. This agreement contains no general post-expiration continuation clause. Quotation validity after expiration must be established from the quotation's own terms.

## 10. Existing Valid Orders

Expiration does not retroactively invalidate commercial terms already established on a valid confirmed order during the active period. New transactions and existing valid transactions must be distinguished.

## 11. 2026 Opportunity Example

Prima Hospitality Group; current tier Preferred; 2026 refurbishment; requested discount 10%; Senior Account Executive; historical agreement expired. The historical 10% delegation does not apply. If 10% is otherwise supported by current policy, APPROVAL REQUIRED because standard Senior Account Executive authority is 8%, unless another current delegation exists.

## 12. Retrieval and Applicability

The expired agreement remains retrievable for historical questions. Customer specificity and semantic relevance do not override expiration. If transaction date is missing and material to applicability, Agreement Applicability is UNKNOWN.

## 13. Decision Sequence

Identify customer and transaction period; verify dates; determine historical vs current question; retrieve current account status and active entitlements; identify replacement agreement; apply historical terms only to governed periods; apply current policy to new current transactions.

## 14. Related Documentation

CM-001, CM-002, CM-004, current account records, current commercial-entitlement records, replacement agreements, and historical orders/quotations where relevant.
