NORTHSTAR COMMERCIAL SOLUTIONS

Meridian Hotels Group Commercial Agreement

Agreement ID: AGR-2026-017

Revision: 1

Effective Date: 1 January 2026

Expiration Date: 31 December 2026

Document Type: Customer Commercial Agreement

Authority Class: Customer-Specific Commercial

Customer: Meridian Hotels Group

Customer Tier: Strategic

Status: Active

1. Purpose

Establishes customer-specific commercial terms for qualifying Meridian Hotels Group purchases during the active agreement period.

2. Agreement Scope

Applies to qualifying purchases across Ice & Beverage Equipment, Commercial Refrigeration, Water Treatment, Commercial Cooking, and Warewashing. Specific agreement clauses modify general policy only within their documented scope.

3. Delegated Discount Authority

For qualifying equipment purchases meeting the agreement conditions, Senior Account Executive delegated authority is up to 10%. This replaces the standard 8% Senior Account Executive authority only for qualifying Meridian transactions.

4. Qualifying Threshold

Delegated authority applies only when Eligible Equipment Subtotal is at least Rp300 juta. The subtotal is determined under CM-001; total opportunity value is not the qualifying threshold.

5. Above Delegated Authority

Requests above 10% are outside the delegated Senior Account Executive authority and must follow the applicable approval and exception process.

6. ExtendedCare Treatment

EC3Y may be included for qualifying equipment where agreement conditions are satisfied, authorized installation is completed where required, and applicable entitlement evidence exists. The agreement supports commercial entitlement but does not by itself prove active coverage.

7. Payment Terms

Qualifying Meridian purchases receive Net 45 under this agreement, within its documented scope.

8. Promotional and Protected Products

This agreement does not establish general promotional stacking permission and does not remove PRICE_PROTECTED restrictions. CM-004 and other applicable restrictions continue to govern unless explicitly overridden.

9. Opportunity Example

Meridian Hotels Group; Eligible Equipment Subtotal Rp489 juta; Senior Account Executive; requested discount 10%. If all agreement conditions are satisfied and no more-specific restriction applies, the request is WITHIN AUTHORITY.

10. ExtendedCare Example

Proposed solution: 3 x Polarix IC-420, 3 x EC3Y, Northstar authorized installation. Before required activation conditions are satisfied, communicate EC3Y as commercially supported and conditional, not as already active confirmed coverage.

11. Expiration and Applicability

Agreement active through 31 December 2026. Historical treatment does not establish current entitlement outside the active period. If customer identity, qualifying subtotal, scope, or agreement evidence is missing, treat applicability as UNKNOWN or INSUFFICIENT INFORMATION as appropriate.

12. Decision Sequence

Identify customer; verify active agreement; determine transaction scope; calculate Eligible Equipment Subtotal; verify Rp300 juta threshold; apply delegated authority; evaluate promotional restrictions; evaluate ExtendedCare separately; verify installation conditions; route approval where required.

13. Related Documentation

CM-001, CM-002, CM-003, CM-004, applicable order and entitlement records. Technical compatibility, installation feasibility, inventory availability, and product sizing remain governed separately.

Northstar Commercial Solutions - Commercial Operations

Customer-specific commercial agreements modify only documented claims within their defined scope. Delegated authority, ExtendedCare entitlement, and payment terms must not be generalized beyond qualifying Meridian transactions.
